Above: Brennan Torregrossa, Senior Vice President, Global Litigation, and Francine French, Senior Lead e-Discovery Manager

### **GSK/HAP PRO BONO PARTNERSHIP**

GSK first partnered with HAP over 10 years ago to provide pro bono support to HAP clients in need of legal services.

Currently, HAP board member Bridget Lankford recruits GSK volunteers from offices located all over the east coast to obtain birth certificates for HAP clients. GSK volunteers have also handled pro bono SOAR cases and staffed in-person HAP legal clinics.

### **BIRTH CERTIFICATE CLINIC**

In May 2023, GSK hosted a birth certificate clinic staffed by GSK's legal leadership, including international team members. Volunteers were engaged and enthusiastic about the pro bono opportunity, and pairs completed a remarkable 22 pro bono birth certificate cases through this event. GSK's Ken Johnson and Andy Boczkowski played critical roles coordinating and supporting the event. Due to the GSK team's efficient efforts, many birth certificates have already been received!

Bridget Lankford says: GSK is honored to partner with HAP to represent individuals who need assistance with obtaining birth certificates. We were thrilled to host the clinic and to be able to help so many pro bono clients in one day.

HAP's Executive Director Tanya Rambert says: It is an honor to partner with such an incredible team, and we are truly grateful for everything the GSK team does for HAP. Thank you from the bottom of our hearts!
